The Honorable Dianne Feinstein
Senate Office Building
United States Senate
Washington, DC 20510

Dear Senator Dianne Feinstein,

I have read the "The Weapons Ban of 2013" bill and offer to you my full, unconditional support of your efforts regarding it.

This bill is long overdue because of all the horrific shootings that have taken place over the last few years, killing and injuring so many innocent and beautiful American lives. I feel that it is the responsibility of our United States Senate to comprehensively pass this bill on a national level because this is, without a doubt, a national problem.

As you know, my family has shared in the pain that comes with firearms in the wrong hands. We nearly lost our daughter, an innocent victim, back in 1997 to an accidental shooting. It seems that our country grew more relaxed, adopting a laissez-faire attitude on this gun issue over the years and now it's time to make a stand -- enough is enough!

The sheer availability of rapid assault-style weapons to anyone in this country is simply wrong! In this modern age, there is simply no need to allow any person the ability to purchase or somehow acquire any military style weapon that allows them to relentlessly unload upon innocent Americans merely because they can.

I wholeheartedly applaud you and all your efforts to make America a safer place for families to live and prosper in. Please keep up the good work.

Above all, please know that you are making a difference and we appreciate and love you for it!

Respectfully Yours,

John Johannessen ■
